

PRESS TEXT inmot!on:

inmot!on offer one-of-a-kind and high energy entertainment. The World- and 3x European Yo-Yo Champions have been performing together for 20 years and show that Yo-Yoing is much more than just up & down...

BIO

Already in first grade the two members of inmot!on Ivo and Jan, were rather interested in juggling- than footballs. Also computer games couldn't grab their attention. Instead they would rather play with various skill toys and improve their hand-eye coordination.

At the end of the 90's the worldwide Yo-Yo trend reached Switzerland and like hundreds of other students Ivo and Jan discovered the Yo-Yo in 1998. The young artists got to know each other in the year 1999 at a Yo-Yo competition. In the summer of 2000 their career as a showduo started with a promotional appearance for one of the biggest department stores in Switzerland.

Over the intervening years inmot!on worked together with various choreographers and coaches and enriched their show with further elements like blacklight/LED and fire. Their Yo-Yo Show "RadYo" was awarded with the World- and European Yo-Yo Championship title in 2012. In 2013 inmot!on were on Swiss tour with the production "Rock Circus" by DAS ZELT. In the last few years inmot!on have performed in USA, Asia, Europe and South America.
